

## Information for AMIL Reverse Auction Suppliers

Ameren's Transmission Operations is requesting the Reverse Auction Suppliers who have signed contracts to supply energy into the AMIL control area starting January 1, 2007 to contact Ameren's Transmission Operations (Balancing Authority). The reason for this is two-fold. First, Ameren Transmission Operations would like to create a 24x7 contacts list between the Suppliers and Ameren's Balancing Authority. And secondly, Ameren's Transmission Operations would like to make available to each supplier a webpage trend showing the AMIL Control Area Forecasted Load (for the current day) vs. the AMIL Control Area Actual Load (for the current day). Please contact Charles Abell at [cfabell@ameren.com](mailto:cfabell@ameren.com) or 314-554-3817(work).
