Schedule 6	Op. Res-Sup. Res.	Consumers	Monthly LRS	\$ 209,000	\$ 17,416.67 * LRS

Notes:

1. Monthly coincident peak including internal generation and transmission losses (1.42%)
2. LRS is measured at monthly coincident peak, including internal generation and transmission losses, and is calculated on a rolling 12 month average.
3. For Renaissance, LRS is calculated for those not self-supplying Schedule 2, and the monthly billing to NITS customer is reduced by point-to-point revenues.
