

Manitoba Hydro intends to revise its Open Access Transmission Tariff effective March 22, 2010 as follows:

- In Section 2.2(a), the first sentence will be revised to clarify that the phrase "when the contract expires" includes the termination of a contract.
- The fourth sentence of that section will also be revised to state that, if the Transmission Provider's Transmission System cannot accommodate all of the requests for transmission service then, subject to Section 2.2 (d), an existing firm service customer must agree to accept a contract term at least equal to the term of a competing request by any new Eligible Customer, and to pay the current Tariff rate for such service.
